AI Data Specialist • Systems Technician • Software Developer

OBJECTIVE

Motivated IT student and systems technician seeking an entry-level role in software development, AI data annotation, or IT support where I can apply my practical experience in Linux administration, programming, and quality assurance.

TECHNICAL & PROFESSIONAL SKILLS

AI Evaluation & QA: Data Annotation (Text, Image, Video), Multi-Step Reasoning Audit, Edge-Case Testing, Quality Auditing

Systems & Infrastructure: Linux (Ubuntu, Debian, Kali, Arch), Windows Administration, Virtualization (VirtualBox, Proxmox, Docker), Raspberry Pi

Software & Web Development: JavaScript, TypeScript, Python, HTML5/CSS3, React, Devvit Web API, Git/GitHub

Operational Management: Project Scheduling, Client Relations, Service Agreements, Technical Documentation, Cost Estimation

RELEVANT PROFESSIONAL EXPERIENCE

AI DATA SPECIALIST / QA AUDITOR | **Outlier & Alignrr** (Contract / Remote) **10/2025 – Present**

- Review and label text, image, and video datasets to improve model accuracy and safety.
- Audit AI logic outputs to flag odd edge cases and incorrect responses before dataset finalization.
- Translate project guidelines into step-by-step checklists to keep team evaluations accurate and consistent.
- Use structured testing methods to find bugs in prompt pipelines and AI code generation tasks.

INDEPENDENT CONTRACTOR & OWNER | **Thumbs-Up Commercial & Residential Services Inc.** **06/2017 – 11/2025**

- Managed daily business operations, client projects, work schedules, and field crew assignments.
- Wrote service agreements, project scopes, cost estimates, and change orders for commercial and residential accounts.
- Handled client communications directly, providing technical walk-throughs, project updates, and bids.
- Tracked project expenses and simplified daily work routines to finish jobs on time and within budget.

TRANSITIONAL HOUSING OPERATIONS MANAGER | **Change 4 Life** **Parkton, NC | 05/2016 – 06/2017**

- Supervised daily facility operations, ensuring strict compliance with operational standards, program guidelines, and safety protocols.
- Facilitated clear communication between case managers, rehabilitation programs, probation services, and external stakeholders.

EDUCATION

Fayetteville Technical Community College (FTCC)
A.A.S. – Information Technology: Computer Programming & Development
Attendance: 2025 – Present | Expected Completion: December 2027
Fayetteville, NC

PROJECTS & COMMUNITY INVOLVEMENT

StreakRush (Reddit Devvit Web App): Interactive web app built using JavaScript, React, and Reddit API.
Google Developer Profile (NevDevB4): Earned skill badges across cloud computing and software development tracks.
Community Work: Contribute code and bug fixes to open-source GitHub projects.
